## How to Connect to Your Wi-Fi Network

1. The **SSID** is your network name. On your device, search for available networks. Your network will be broadcasted as this name. Select this network.
2. You should be prompted to enter a password. Your Wi-Fi password is the **WPA Key**. Enter this key for each device you would like to connect.

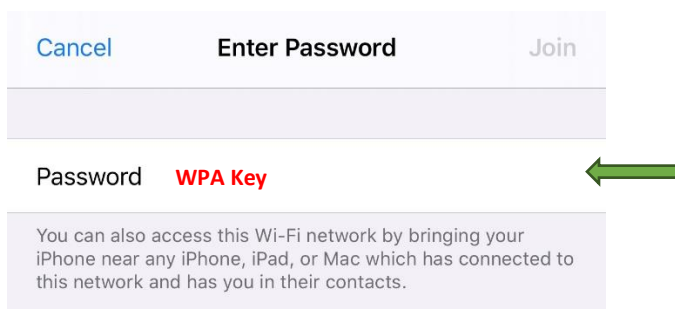

If you have any issues, don't hesitate to call RURALBAND 24/7 Technical Support at **888-309-6520**.
